Assess your readiness for success:

1. Estimate how prepared you are in each of the five areas at left. Write your estimates in the white boxes.
2. In the table below, circle the number in each column that shows your estimate from Step 1.
3. Shade the area in each column from the circled number to the bottom of the column.

**The shaded area shows how likely you are to experience Confusion, Anxiety, etc. ... UNLESS you improve your Vision, Skills, etc.**

Vision	Skills	Incentive	Resources	Action Plan
0	0	0	0	0
1	1	1	1	1
2	2	2	2	2
3	3	3	3	3
4	4	4	4	4
5	5	5	5	5
6	6	6	6	6
7	7	7	7	7
8	8	8	8	8
9	9	9	9	9
<b>Confusion</b>	<b>Anxiety</b>	<b>Delays</b>	<b>Frustration</b>	<b>False Starts</b>

The shaded areas show the degree of Confusion, Anxiety, Delays, Frustration and False Starts you are likely to experience IF YOU TAKE NO ACTION!

What sort of action? If you're not good at spelling, you'll most likely use Spell Check on every document going out to your clients. It's exactly the same with systems (and weight loss, building a house, etc). If you don't have the skills, you engage someone who has those skills. If you don't have the vision, you develop this through interaction with friends, colleagues and other business owners, etc.

You've got the picture.
